Coffee happens to the most bought out of all the products

RECOMENDATIONS

Recomendations will include layout, expanding our loyalty program, and introducing new menue itemes to drive sales.

Optimizing store layout:
Conduct store layout.
Implement layout changes.
Monitor salesimpact.

Expand loyalty program:
finalize enhancement.
Launch update program.
Promote via social media.

Introduce new manu items:
Identify top-selling trens.
Develop and test new items.
Roll out new menue.

IMPLEMENTATION

In the following analysis , I will outline an implementatio plan to drive growth and improve customer experience. This includes optimizing store layouts, expanding our lyalty program, and intoducing new manue.

The analysis reveals clear oppotunities to optimise sales performents by aligning marketing efforts with customer traffic partterns and inventory management.
Implementing the recommended actions-running targrted campaigns during slow time slots, boosting stock to top-selling items, and promoting underperforming products will drive revenue and omprove product visibility. Moving forward, automating daily sales reporting, expanding multi-location performance tracking, and introducing loyalty programs tied to peak customer times till enable sustainable growth and better decision making
